

YAMAN CHOUDHARY

Full Stack Developer (MERN) | AI/LLM Integration

Jaipur, Rajasthan | +91-8233202884 | choudharyyaman004@gmail.com | [LinkedIn](#) | [GitHub: yaman004](#)

PROFESSIONAL SUMMARY

Full Stack Developer specializing in the MERN stack with hands-on internship experience shipping production web applications across three companies, including AI-focused execution work. Proven ability to integrate LLM/OpenAI APIs into full-stack products, including an autonomous AI agent platform with permissioned tool execution and human-in-the-loop approval. Comfortable owning a feature end to end — frontend, API, database, and deployment. Available to join immediately.

TECHNICAL SKILLS

Languages: JavaScript, Python, SQL

Frontend: React.js, Redux, Next.js, HTML5, CSS3, Responsive Web Design

Backend: Node.js, Express.js, REST APIs, Authentication & Authorization, CRUD Design

Databases: MongoDB, MySQL

AI / ML: OpenAI API Integration, LLM-powered features, OpenCV

Tools & Deployment: Git, GitHub, Postman, VS Code, Vercel, Render

EXPERIENCE

Junior AI Executive — Flo (Jaipur, Rajasthan)

May 2026 – Sep 2026

- Supported AI-driven initiatives, applying full-stack and LLM integration skills in a production business environment.
- Collaborated with cross-functional teams to deliver AI-assisted features and workflows.

Full Stack Developer — Cynbit Technologies Pvt. Ltd. (Jaipur, Rajasthan)

Apr 2025 – Sep 2025

- Developed and deployed MERN stack applications end to end — responsive React.js frontends and scalable Node.js/Express.js backends shipped as production-ready features.
- Collaborated under Agile practices to design, build, and debug full-stack features using JavaScript, REST APIs, and MongoDB.

Web Developer — Regex Software (Jaipur, Rajasthan)

Jun 2024 – Aug 2024

- Engineered responsive web applications using React.js and Node.js, translating requirements into functional UI components.
- Optimized key application features through iterative debugging, improving load performance and user experience.

PROJECTS

[TaskOS — Task Operating System](#) | React.js, Node.js, Express.js, MongoDB, Socket.IO

- AI digital-employee platform: plans multi-step missions and executes them autonomously via permissioned tool calls, with a human-in-the-loop approval flow and a live execution trace streamed to the frontend over Socket.IO.

[AI Interview Coach](#) | React.js, Node.js, OpenAI API, MongoDB

- AI-powered mock interview platform integrating the OpenAI API with speech-to-text to capture spoken responses and generate AI-driven performance evaluations.

[Smart Job Portal with AI Match Score](#) | HTML, CSS, JavaScript, Node.js, Express.js

- Full-stack job portal with CRUD listings/applications and an AI-powered skill-matching engine generating personalized job recommendations.

[Marcus — Gesture-Based AI Chatbot](#) | JavaScript, MediaPipe Hands, HTML5, CSS3

- Browser-based chatbot using real-time computer vision (MediaPipe Hands) with a gesture-to-intent-to-response pipeline, confidence scoring, and cooldown debouncing across six gestures.

EDUCATION

B.Tech, Computer Science Engineering — Poornima College of Engineering

2022 – 2026

CGPA: 7.6/10 | Jaipur, Rajasthan

Senior Secondary (12th, RBSE) — Saint Lawrence Sr. Sec. School

2021

Percentage: 88.40% | Jaipur, Rajasthan

CERTIFICATIONS

ReactJS & Redux (Udemy) • Node.js with Express & MongoDB (Udemy) • Python for Data Science (XIE) • MongoDB Basics • TATA Cybersecurity Analyst Job Simulation
